

Upper Currambene Creek Sanctuary Zone
This zone incorporates the upper reaches of Currambene Creek upstream from a point west of Goodland Road, to the tidal limit.

Currambene Creek Mudflats Sanctuary Zone
This zone encompasses the area of mudflat bounded by the port navigation markers in the lower section of Currambene Creek. It extends from the shoreline 100m downstream from the Woollamia Regional Boat Ramp east to a port navigation marker, then south (downstream) following the line of the port navigation markers to the intersection with the Huskisson Special Purpose Zone, then west to the channel draining the Fish Reserve at Lady Denman Heritage Complex. It includes the mangrove boardwalk.

Huskisson Sanctuary Zone
This zone extends from a point at the mean high water mark near the southern entrance to Currambene Creek, north east 1.1km to a point, then due east 1.3km to a point, then due south 1.3km to a point, then south west 1.3km to the edge of the southern extent of the submerged reef at Tapalla Point, then north west to the mean high water mark at the sand/rock interface at the northern end of Huskisson Beach, then generally north west along the shore to the point near the southern entrance to Currambene Creek.

Hare Bay Sanctuary Zone
This zone extends from the mean high water mark, at a point adjacent to 'the Ladders' on the northern end of Long Beach (250m south of Montague Point), 3.3km due west to a point, then 4.1km due north to the rock/sand interface on the western side of Red Point. It includes Carama Inlet and all its creeks and tributaries to the tidal limit.

Wowly Gully Sanctuary Zone
This zone includes all of Wowly Gully to the tidal limit.

Hammer Head Sanctuary Zone
This zone encompasses the beach and reef at Hammer Head Point and the beach north of Hammer Head Point to a point on the southern side of Bulls Waterhole. It extends from the mean high water mark south of the reef at Hammer Head Point due east for 500m, then due north approximately 1.2km, then due west for approximately 0.9km to a point 500m from the shore, then north at a distance of 500m from the mean high water mark to a point due east of the southern side of Bulls Waterhole, then west to the mean high water mark on the beach.

Blacks Cave Creek Sanctuary Zone
This zone includes all of Blacks Cave Creek upstream of the main channel of Currambene Creek. It extends upstream of a line from the tip of the fork in the creek due east to the creek bank and up to the tidal limit.

Huskisson Wharf Special Purpose Zone
This zone has been established for the management of boating and wharf related activities. The zone encompasses the area of Currambene Creek between the creek entrance and the Currambene Creek Mudflats Sanctuary Zone. It extends from the mean high water mark on the southern bank of Currambene Creek across to the mean high water mark on the northern bank of the creek.

Currambene Creek Mudflats Sanctuary Zone

Moona Moona Creek Sanctuary Zone
This zone includes all of Moona Moona Creek, including all its creeks and tributaries, from a point 50m upstream from the road bridge to the tidal limit.

Moona Moona Creek Sanctuary Zone

Hyams Beach Sanctuary Zone
This zone extends from the mean high water mark at the rock/sand interface on the southern end of Nelsons Beach, north east approximately 1.5km to a navigation marker, then due east 2.0km, then due south to the Commonwealth waters boundary then south west along the Commonwealth boundary to the intersection with the HMAS Creswell special purpose zone, then in an arc along the boundary of the special purpose zone to an intersection again with the Commonwealth waters boundary, then north as a distance of 100m east of the mean high water mark to a point due east of the rock/sand interface at the northern end of Chinamans Beach, then west to the mean high watermark, then north following the shore back to the southern end of Nelsons Beach.

Hyams Beach Sanctuary Zone

Groper Coast Sanctuary Zone

Point Perpendicular - Crocodile Head Sanctuary Zone
This zone extends from the shoreline eastward to the marine park boundary (approximately 1.5km offshore) from the southeastern extremity of Crocodile Head to the southern extremity of Point Perpendicular.

The Docks Sanctuary Zone
This zone extends from the mean high water mark on the northern side of Gardeners Gully north west to the southernmost extremity of the headland 400m west of Bream Creek (Boat Harbour), then generally south east following the mean high water mark to the point north of Gardeners Gully, including all creeks, bays and tributaries to the mean high water mark and to the tidal limit.

Boundary of Jervis Bay Marine Park

- Sanctuary Zone
- Habitat Protection Zone
- General Use Zone
- Special Purpose Zone
- Commonwealth Waters
- Designated anchoring area
- Anchoring prohibited (Nov - April)
- Terrestrial protected area
- Other terrestrial area
- Sanctuary Zone buoy
- East Cardinal Marker

Lift netting for bait (non-saleable only)	X	✓ (f)	✓	X

TABLE 2 KEY

- * Requires NSW Fishing licence or permit under the Fisheries Management Act
- ✓ Activity allowed
- X Activity prohibited
- P Permission required from Marine Parks Authority NSW.
- (a) Spear fishing is prohibited in all creeks and in the Hyams Beach Habitat Protection Zone.
- (b) Recreational nets permitted for the taking of prawns and crabs in habitat protection zones and special purpose zones are the scoop, landing, scissor (push) or hoop (lift) nets. Use of all nets in Currambene Creek is prohibited - DPI Fisheries closure.
- (c) Personal watercraft are allowed to traverse sanctuary zones directly to and from the point of launching only, at a maximum speed of ten knots.
- (d) Anchoring is restricted to designated anchoring areas in some sanctuary zones, see map above. Anchoring is allowed in any zone in an emergency where necessary to protect life or property.
- (e) Restrictions apply to the species that can be collected, see Table 1.
- (f) Is limited to a specific area. The number of permits is strictly controlled and permits are non-transferrable.
